Work Flow

Our approach is characterized by our commitment to you. A quotation is agreed and signed before start of work. Once LPO is issued, we would send the art work. After the confirmation for art work, the sample production starts. The art work would give the client a clear idea of the final product This helps them to have a feel of final product before production, thereby enabling easy alterations if required thereby saving time. Once the client approves the sample, we would go ahead for the production. We will complete the work within budget and specified timeline with quality and perfection.
